

Table Skirts

Beautiful and elegant, our plain colour table skirts can be realized in several colours with the strong wrinkle free Gabardine Plus (100% Pol.). Easy washing: if they dry off without squeezing, they don't need to be ironed. Solid guaranteed colours, they don't shrink while washing.

Our table skirts are sold both in "2 meters modules", with standard length of 2 meters x 75 cm of height, and custom-made "per linear meter", the customer chooses the length, (maximum 3 mt) while the height is 72 or 75 cm. In this case, the cost is calculated depending on the meters needed and the customer can decide the length of each cut (even quantities). Different heights can be realized too, but in that case the cost has to be verified.

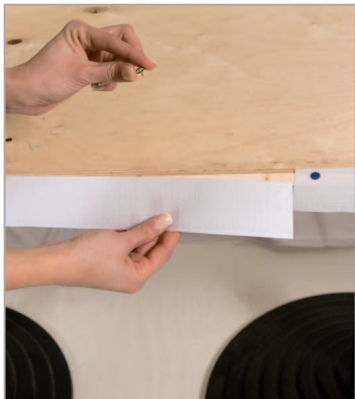

To complete your buffet with elegance, you can order also the table cover, made with the same fabric.

Joining systems

Joining system with velcro tape

Included in the cost of the table skirt, is supplied the velcro tape to be fixed directly on the edge of the table. On the table, you can place our original Amalfi tablecloths (in the category Amalfi table linens).

Joining system with Clips

Instead of the velcro tape to be applied to the edge of the table, you can use a practical clip (for tables with a thickness from 1,5/2 cm to 4 cm). We recommend placing a clip each 20 cm.
